## Introducing Verge™ Soap and Faucets

Create washroom harmony with the new line of Verge coordinating soap dispenser and faucet sets. Never again sacrifice style with mismatched soap and faucets. Designed to complement the sophisticated Verge® handwashing basins, the new soap and faucet pairs work beautifully with any basin to provide the finishing touch to your commercial restroom designs.

Good looks and technology go hand in hand with the Verge line of soap dispensers and faucets. Advanced sensor technology eliminates false activations and optimizes power consumption, longer spouts create increased handwashing space, and brass cast spout construction delivers durability with stylish and environmentally friendly PVD finishes.

Harmonize your soap and faucet look with these matching sets and take your commercial restroom design to the next level.

Impressive lineup of four styles and six finishes results in industry leading array of twenty-four options to achieve every designer's dream.

## Zen

Sleek linear design

## Verge Faucets

- Feature patented dual sensor technology to provide the most accurate activation while optimizing battery life.
- Touch-free 0.35 gpm (1.3 L-Min) or 0.5 gpm (1.9 L-Min) options for water savings and multiple run times can be selected to fit your application.
- Auto flush feature flushes out the water line every 24-hours: manual valve override feature for longer flushing requirements useful in applications such as healthcare.
- Solid brass construction delivers years of durable and reliable service.
- Hidden sensors, nozzles and aerators prevent vandalism while enhancing the sleek modern styling.
- Longer spouts give hands more space for a better handwashing experience.
- Battery power standard with optional AC power adapter with battery back-up.
- Now available with optional 4" Trim Plate in polished chrome, brushed black, or brushed stainless.

Faucets now available with optional trim plate.

Individual top-fill dispenser with  
70.5 oz (2.0 L) capacity tank

LED indication displayed  
through elegant translucent  
ring at bottom of dispenser.

# Verge Soap Dispensers

- Industry leading breadth of top-fill options with high capacity tanks that require fewer refills.
- Feature a smart sense system with LED light indicators that let maintenance staff know when soap and battery levels are low.
- Audible and visual alerts aid the refill process to prevent overfilling and spillage.
- Additional vent tube in the shank prevents air blockage allowing for easier refill.
- Utilize universal bulk soap in foam and liquid options.
- Hidden sensors, nozzles and anti-rotation gasket prevent vandalism.
- Sensing optimized to eliminate false activations and maximize battery life.

Individual top-fill soap port is easily accessible.

Soap spout automatically disables when removed from the shank for less mess when refilling.

## Speed Up Maintenance with the Top Fill Multi-Feed Soap System

In high traffic situations with multiple handwashing stations, a Top Fill Multi-Feed soap system is available that supplies up to six soap dispensers. Bulk soap systems can save time and money with high capacity soap containers that don't have to be filled as often as individual soap containers. All soap styles are available with the automatic multi-feed option.

- Large 1.3 gallon (5.0 L) tank accepts foam or liquid universal soap.
- Smart sense system with LED light indicators to display low soap and low power.
- Audible and LED indicators prevent overfilling.
- Brass cast fill port available in same 6 finishes as new soap and faucet styles.

**Multi-Feed Soap System  
SAVES UP TO 85% ON SOAP COSTS  
compared to individual cartridges.**
