

Spaces4Learning Announces 2020 New Product Award Winners

DALLAS, August 17, 2020 – *Spaces4Learning* today announced the winners of its 2020 New Product Awards. *Spaces4Learning* is a leading publication for education institutions, the architectural community, service providers, and others interested in creating high-quality facilities. The brand's magazine, website and digital products bring together a broad array of vital resources and services that keep facilities professionals abreast of current issues, trends and research; provide professional development opportunities; and connect those sharing a common interest.

The New Product Award program honors the outstanding product development achievements of manufacturers and suppliers whose products or services are considered to be particularly noteworthy in their ability to enhance the learning environment.

"This has been a difficult time for education institutions, but the manufacturers and suppliers that serve this sector have really stepped up with great solutions to help ease the burden for schools, colleges and universities facing the challenges of reopening or remaining open amid the COVID-19 pandemic," said David Nagel, editorial director of *Spaces4Learning*. "*Spaces4Learning* congratulates all of our winners on their important contributions."
